

Prof. Gabriella Salviulo

**Main current research activity**

Study of the efficacy and efficiency of iron oxide nanoparticles for the removal of pollutants from water and soil. Role of mineralogy in metal release processes.

**Academic Record**

2016- member of the Executive Council Human Rights Center “Antonio Papisca”

2017 - member of the Scientific Committee of the General Course on Human Rights and Inclusion University of Padua

2013-2018 member of the Executive Council of the National Mineralogy Group

2013-2017 President of the Degree Course in Natural Sciences

2002- Associate Professor of Mineralogy University of Padua

1990-2002 Researcher at the University of Padua

2000 - Scientific Director of the Powder Diffraction Laboratory Department of Geosciences

University of Padua 1989-1990: Full Professor of Geography, Technical Institute of Amicis Rovigo

1985-1988: Phd in Earth Sciences University of Padua

1984: degree in Geological Sciences "cum laude" University of Padua

**Publications**

She has published 113 paper on international journals, and international and national conference proceedings

**Teaching activity**

She has taught Mineralogy for numerous degree courses: Geological Sciences, Chemistry, Sciences and Technologies for cultural heritage.

She currently teaches Mineralogy for the degree course in Natural Sciences
