

The Workshop, organized within the thematic network activities of the Jean Monnet Centre of Excellence of the University of Padua, aims to identify, explore and valorise sources and references to “imagine Europe”.

With a particular focus on strengthening the value basis of Europe, invited speakers and participants will be engaged in an applied reflection and policy assessment of the cultural and value basis for intercultural dialogue, seen from an internal and external perspective. Workshop sessions deal with the value driven foundations of Europe and the perspectives of a value oriented Europe in the World.

In this regard, the Workshop will contribute to the reflection on the specific sources and references to imagine Europe's future as a plural entity and a socio-economic model shaped by a community of shared values, spaces and encounters as well as to the references and sources for Europe's role and responsibility in a plural and globalizing world.
